(We present only the first author in contents)

Workshop sponsors.....	6
ECIP Scientific Board.....	7
List of attendants.....	8
Programme.....	9
Abstracts.....	11
Untangling convoluted taxonomy of <i>Chambriella</i> Rego, Chubb and Pavanelli, 1999 (Cestoda: Proteocephalidae), with erection of a new genus and description of a new species from pimelodid catfishes in the Neotropical Region (Philippe Vieira Alves).....	12
Taxonomic revision of the genus <i>Caryophyllaeus</i> Gmelin, 1790, (Caryophyllidea), monozoic tapeworms of cyprinid fishes (Daniel Barčák).....	13
Radiation of <i>Ceratomyxa</i> species in the clinid fish in the rock pools of South Africa (Pavla Bartošová-Sojková).....	14
Phylogenetic relationships between two cyprinid genera – <i>Telestes</i> and former <i>Rutilus</i> from the perspective of host-specific <i>Dactylogyrus</i> (Monogenea) parasites (Michal Benovics).....	16
Structural adaptation to external embryonic development and active host finding strategy in <i>Cardiocephaloides longicollis</i> miracidia (Digenea, Strigeidae) (Ana Born-Torrijos).....	17
Ultrastructure of oocysts and sporozoites of urosporid gregarine from marine polychaete (Andrei Diakin).....	18
No regrets, suppression of a traditional genus is needed: <i>Henneguya</i> is “just” a <i>Myxobolus</i> with long spore projections (Ivan Fiala).....	19
Dactylogyrids (Monogenea: Dactylogyridae) parasitizing African catfishes (Siluriformes) (Kateřina Francová).....	21
A North American alien species of <i>Posthodiplostomum</i> Dubois, 1936 (Digenea: Diplostomidae) widespread in European fresh-waters (Simona Georgieva).....	22
<i>De-novo</i> development of microsatellite markers for <i>Dactylogyrus vistulae</i> (Lenka Gettová).....	24
<i>Orientattractis brycini</i> sp. nov. (Nematoda: Atractidae) from characiform freshwater fishes in Gabon, Africa (David González-Solís).....	25
Molecular and biochemical characterization of cysteine peptidase inhibitor from <i>Eudiplozoon nipponicum</i> (Monogenea) (Jana Ilgová).....	28
Leeches of notothenioid fishes in Antarctica: new species discovery and phylogenetic position (Nikol Kmentová).....	30
<i>Paradiplozoon hemiculteri</i> , real one! (Dagmar Jirsová).....	32
<i>Eudiplozoon nipponicum</i> : "Together – chance or destiny?" (Dagmar Jirsová).....	33
A preliminary phylogenetic analysis of dactylogyrids (Monogenea) parasitizing African tetras (Maria Lujza Kičinjaová).....	37
Different motility modes in marine gregarines representing the early emerging group of Apicomplexa (Magdaléna Kováčiková).....	39
Immunocompetence and parasite infection in hybrids of roach (<i>Rutilus rutilus</i>) and common bream (<i>Abramis brama</i>) (Vadym Krasnovyd).....	41
Molecular diversity of <i>Tylodelphys</i> spp. in fishes from South Africa (Olena Kudlai).....	42
Ultrastructure of embryonated eggs of the cestode <i>Gyrocotyle urna</i> (Gyrocotylidea) using cryo-methods (Céline Levron).....	44
First record of metacercariae of North American digenean, <i>Posthodiplostomum</i> cf. <i>minimum</i> (Strigeiformes: Diplostomidae) in Europe (Yuriy Kvach).....	46
Detecting myxozoan biodiversity using eDNA (Inga Martinek).....	47
New records and phylogenetic position of African freshwater camallanid nematodes (Šárka Mašová).....	48
New species of dactylogyrid monogeneans of the genera <i>Ameloblastella</i> and <i>Cosmetocleithrum</i> from Iquitos, Peru (Carlos A. Mendoza-Palmero).....	50
Alien gobiids in the diet of piscivorous fishes in a Central European lowland river (Libor Miki).....	51

Descriptions of <i>Philometra aenei</i> n. sp. and <i>P. tunisiensis</i> n. sp. (Nematoda: Philometridae) from <i>Epinephelus</i> spp. (Osteichthyes: Serranidae) off Tunisia confirm a high degree of host specificity of gonad-infecting species of <i>Philometra</i> in groupers (Serranidae) (František Moravec)	52
The effects of eye fluke <i>Diplostomum pseudospathaceum</i> on metabolism of European bitterling <i>Rhodeus amarus</i> (Veronika Nezhybová)	54
Distribution of <i>Bucephalus polymorphus</i> in fish hosts after expansion of non-native gobies in the Morava River (Markéta Ondračková)	55
Revision of the genus <i>Promonobothrium</i> (Cestoda: Caryo-phyllidea), tapeworm parasites of suckers (Catostomidae) in North America (Mikuláš Oros)	56
Evolution and genetic variability of the <i>Carassius auratus</i> complex (Tomáš Pakosta)	58
Molecular diversity of new members of the <i>Sphaerospora sensu stricto</i> clade (Cnidaria: Myxozoa) (Sneha Patra)	60
Costly defence in a fluctuating environment – sensitivity of annual <i>Nothobranchius</i> fishes to predator kairomones (Matej Polačik)	61
The relationship between fish host personality and susceptibility to parasite infection (Markéta Pravdová)	62
Monogenean parasites in South Africa: new challenges and many possibilities (Iva Přikrylová)	63
Morphological diversity of <i>Cichlidogyrus</i> species (Dactylo-gyridae) in Tanganyikan and non-Tanganyikan cichlids (Chahrazed Rahmouni)	65
Evolutionary ecology of annual fishes (Martin Reichard)	66
Strigeid trematodes (Digenea) from Iceland – an integrative taxonomic approach (Jana Roháčová)	67
Developmental and ontogenetic effects of sexual parasitism, polyploidy and hybridisation (Jan Röslein)	69
<i>Eudiplozoon nipponicum</i> (Monogenea): analysis of secretome and characterization of selected proteins – serpins (Pavel Roudnický)	71
Diversity and interrelations of dactylogyrid monogeneans (Platyhelminthes) parasitizing African fishes (Eva Řehulková)	73
Study of the genetic relationships among parasite species of African freshwater fishes using nuclear ribosomal DNA (Mária Seifertová)	75
Proteocephalidean tapeworms (Cestoda: Onchoproteocephalidea) of loaches (Cobitoidea): evidence for monophyly and high endemism of parasites in the Far East (Tomáš Scholz)	76
Does presence of pharmaceuticals in effluent from sewage treatment plant influence the parasite infection in brown trout (<i>Salmo trutta</i> m. <i>fario</i>)? (Andrea Slaninová)	77
Patterns of cercarial emission of <i>Diplostomum</i> spp. in a subarctic lake ecosystem as adaptation for trematode transmission under subarctic climatic conditions (Miroslava Soldánová)	78
Parasite diversity of cichlid fish in Madagascar (Andrea Šimková)	79
Early life stages of exotic gobiids represent attractive new hosts for unionid glochidia (Luděk Šlapanský)	80
New data on vahlkampfiid amoebae (Heterolobosea Page and Blanton, 1985) (Tomáš Tymi)	81
Diversity and invasion biology of cichlid parasites, with focus on a case study in Madagascar (Maarten P.M. Vanhove)	82
<i>Eudiplozoon nipponicum</i> (Monogenea): the molecules transcribed by hematophagous parasite of fish (Jiří Vorel)	83
Repatriation of an extinct fish host: An opportunity for myxozoan parasite diversity Hannah Wünnemann)	85
Species of <i>Gyrodactylus</i> von Nordmann, 1832 (Platyhelminthes: Monogenea) from cichlids from Zambezi and Limpopo river basins in Zimbabwe and South Africa: evidence for unexplored species richness (Petra Zahradníčková)	86
Preliminary list of publications dedicated to ECIP – 2016.....	87
