

Table of Content

Vítězslav Bryja: <i>Inhibitors of casein kinase 1 for treatment of leukemia</i>	8
Master Section A	9
Martina Poláková: <i>Morus alba - isolation and identification of prenylated phenolic substances</i>	10
Lucie Robošová: <i>Morus alba – potential in therapy of Alzheimer’s disease and isolation of content compounds</i>	10
Miriama Dupláková: <i>Isolation of constituents from fractions obtained from Paulownia tomentosa fruit</i>	11
Nikol Jurčová: <i>Active constituents of Amorpha fruticosa L., Fabaceae</i>	12
Tomas Crha: <i>Determination of isomaltulose in food supplements by HPLC with evaporative light-scattering detector (ELSD)</i>	12
Radka Zackova: <i>Determination of aminopeptidase N inhibitory activity of newly synthesised nitrogenous compounds</i>	13
Michal Greguš: <i>Synthesis and evaluation of natural 2-arylbenzofuran analogues as anti-inflammatory agents</i>	14
Petr John: <i>Synthesis of new 1,3,4-thiadiazol derivates with potential antibacterial and antitubercular activity</i>	16
Master Section B	17
Zuzana Burclová: <i>Optimization of the methodology for determining the inhibitory activity of natural substances on bacterial biofilm formation</i>	18
Veronika Porostlá: <i>Optimalization of Methodology and Testing of Antibacterial and Synergistic Potential of Kuwanon E, Isolated from Morus alba Root Bark</i>	19
Veronika Hulková: <i>Synergistic interactions between selected essential oils and antifungal drugs against Candida for local application</i>	20
Hana Janečková: <i>Synergistic effect of selected essential oils and antibiotics for external use against Staphylococcus aureus</i>	21
Tereza Ctvrtlikova: <i>Mechanism of antitumor action of Pt(IV) complexes with double and triple effect containing estramustine</i>	21
Michaela Heglasová: <i>Comparison of Thrombolysis Induced by Tenecteplase and Alteplase in a Rat Model of Systemic Arterial Embolism</i>	22
Master Section C	24
Kristýna Šudomová: <i>Price and non-price competition tools applied in pharmacy system</i>	25
Jana Janyová: <i>Quality of life assessment in patients with tinnitus</i>	26
Damir Solak: <i>Waiver of value added tax on medicinal products imported from the third countries</i>	27
Martin Veselý: <i>Preparation and evaluation of mannitol microparticles for lung application</i>	27
Adam Staňo: <i>Innovative highly porous matrix pellets for the detection of chemical warfare agents</i>	28

Gabriela Koutná: <i>Preparation and evaluation of matrix dosage forms with sustained drug release for dynamic biorelevant dissolution study</i>	31
Doctoral Section	32
Kateřina Tenorová: <i>Collagen-carboxymethylcellulose blend films as a novel wound dressing</i>	33
Dagmar Blaháčková: <i>Ink-jet not just for printing docs</i>	34
Natália Janigová: <i>3D printing of multilayered orodispersible films: A comparison of drying methods</i>	35
Hana Hořavová: <i>Preparation of spray-dried microparticles containing N-acetylcysteine for lung application</i>	36
Ivan Stupák: <i>Modified compartments for biorelevant dissolution apparatus Golem v2</i>	37
Lucia Ungvarská Maľučká: <i>Synthesis of new carbamate compounds as cholinesterase inhibitors</i>	38
David Švestka: <i>Asymmetric Organocatalyzed Friedel–Crafts Reaction of Chloral and Phenols</i>	39
Magdaléna Onuščáková: <i>Design, synthesis, and antiproliferative activity of newly designed derivatives of N-hydroxycinnamamide</i>	40
Veronika Ballayová: <i>Basic derivatives of aromatic-aliphatic ketones as potential inhibitors of aminopeptidase N</i>	41
Gabriela Škovranová: <i>Synergistic activity of flavonoid derivatives from Morus alba root bark against MRSA isolates</i> ..	42
Lenka Molčanová: <i>Prenylated phenolic compounds – isolation, structural analysis and biological activity</i>	43
Dominik Rotrekl: <i>Natural anti-inflammatory products and glucan particles as their drug delivery system – usability in an ex vivo and in vivo models</i>	44
Eva Vohlídalová: <i>Harmene reduces the activity of CYP2D1/2, CYP2B1, CYP2C11 and CYP3A1 after subchronic administration in rats</i>	45
Results	47
<i>Master section A</i>	48
<i>Master section B</i>	48
<i>International Student Scientific Conference Nominees</i>	49
