

Table of contents

Summary.....	1
1. Introduction.....	3
2. The reflection of Energiewende by selected Czech and Polish stakeholders	4
2.1 The implications of Energiewende for Germany as reflected by the Czech and Polish stakeholders.....	6
2.1.1 Absolute coding frequency	7
2.1.1.1 Category: Achievements.....	7
2.1.1.2 Category: Challenges	8
2.1.2 Coding co-occurrences.....	10
2.1.2.1 Category: Achievements.....	10
2.1.2.2 Category: Challenges	11
2.2 The implications of Energiewende for the Czech Republic and Poland as reflected by the Czech and Polish stakeholders.....	14
2.2.1 Absolute coding frequency	16
2.2.1.1 Category: Achievements.....	16
2.2.1.2 Category: Challenges	16
2.2.2 Coding co-occurrences.....	18
2.2.2.1 Category: Achievements.....	19
2.2.2.2 Category: Challenges	19
2.2.2.3 Category: Disagreements.....	20
2.2.2.4 Category: Uncertainty and delays	22
2.2.2.5 Category: Solutions.....	22
2.2.2.6 Category: Cooperation	23
2.2.2.7 Category: Suggestions.....	25
2.3 Summary	25
3. Energiewende - what to expect?	26
3.1 Energiewende 2035 – scenarios by 50Hertz	26
3.1.1 Prosumer-oriented energy transition	27
3.1.2 Energy transition in accordance with the EEG model.....	29
3.1.3 Competitive energy transition	31
3.1.4 Delayed energy transition	32
3.1.5 Incomplete energy transition.....	35
4. Energiewende’s impact on the Czech Republic and Poland – the impact mechanism	40
4.1 Price signals	40
4.1.1 The price convergence mechanism.....	40
4.1.1.1 Integration of European electricity markets	41
4.1.1.2 Market integration and price convergence mechanism	44
4.1.1.3 Price convergence between Germany and the Czech Republic	46

4.1.1.4	Price convergence between Germany and Poland.....	48
4.1.2	Price level.....	53
4.1.3	Price volatility	56
4.2	Europeanization of Energiewende.....	60
4.2.1	Costs of non-compliance.....	61
4.2.2	The role of Germany in the EU	63
4.2.3	Energiewende and the European energy policy.....	64
4.2.4	Renewables in Germany and the EU.....	64
4.2.5	Implication for the Europeanization of Energiewende.....	66
5.	The impact on the Czech and Polish energy sectors.....	67
5.1	Producers	67
5.2	Consumers	74
5.3	Grid	79
5.4	State energy policy	82
6.	Recommendations.....	91
6.1	The Czech Republic	91
6.2	Poland.....	93
7.	References	95
8.	Annexes.....	106
8.1	Stakeholder analysis methodology	106
8.2	Code scheme development.....	109
8.2.1	Defining the coding units.....	110
8.2.2	Defining the codes and development of a codebook.....	110
8.2.3	Testing coding on sample of text.....	110
8.2.4	Coding the whole corpus of transcribed interviews	110
8.3	Codebook of the stakeholder analysis.....	111
8.3.1	Category: Achievements of Energiewende in Germany	113
8.3.2	Category: Challenges of Energiewende for Germany.....	113
8.3.3	Category: Public acceptance of Energiewende in Germany	115
8.3.4	Category: The influence of Energiewende upon the EU energy policy.....	115
8.3.5	Category: Achievements of Czech Republic and Poland	115
8.3.6	Category: Challenges for Czech Republic and Poland	116
8.3.7	Category: Solutions	117
8.3.8	Category: Uncertainty and delays	118
8.3.9	Category: Cooperation.....	118
8.3.10	Category: Suggestions	119
