

## Table of contents

ELECTROCHEMICAL PRETREATMENT OF SOLID STATE ELECTRODES .....	6
A) Effect of different electrochemical pretreatments on detection of ascorbic acid and dopamine .....	6
B) The processing an electroanalytical experiment .....	13
ANALYSIS OF EQUILIBRIUM USING POTENTIOMETRIC TITRATIONS .....	20
Determination of protonation constants of purine derivatives .....	20
ELECTROANALYSIS AT MERCURY AND SOLID ELECTRODES .....	26
A) Electrochemical detection of nucleic acid fragments .....	26
B) Techniques and procedures increasing sensitivity of voltammetric methods .....	32
ELECTROCHEMICAL IMPEDANCE SPECTROSCOPY (EIS) .....	37
EIS of guanine on modified and unmodified graphite electrodes .....	37
ELECTROCHEMICAL QUARTZ CRYSTAL MICROBALANCE (EQCM) .....	46
A) Deposition and stripping of copper on gold .....	47
B) Monitoring of long alkyl chain thiols self-assembly on gold .....	49
SPECTROELECTROCHEMISTRY .....	53
Spectroelectrochemical investigation of the ferro-ferri redox system .....	53
ION CHROMATOGRAPHY WITH ELECTROCHEMICAL DETECTION .....	63
Anions in drinking water .....	63
